- FASTER TO INSTALL WITH FEWER SEAMS
- AVAILABLE IN 13.5 FT² AND 310 FT² ROLL SIZES

MANDERLEY LESS WATER IS CANADA'S FIRST CERTIFIED DROUGHT TOLERANT SOD & SEED

In order for a turfgrass consumer product, blend or mixture to use the qualified TWCA label, a minimum of 60% of the varieties included in that product, blend or mixture must be TWCA qualified. The main goal of the TWCA program is to combat the rising concern of our depleting water resources. To accomplish this goal, the TWCA program is designed to recognize plants and other live goods products in the lawn and garden industry that provide a clear benefit in water conservation. Products that become TWCA qualified will have successfully met a stringent set of criteria. For more information visit www.tgwca.org
